## Al Falah Foundation (Regt) Organised Free Medical Camps Worth approximately PKR 01 Million in 1<sup>st</sup> Quarter

### Socioeconomic Impact

#### 1. Improved Health Outcomes:

- Provides access to healthcare services in remote and under-served areas, reducing health disparities.
- Offers timely, effective and specialized treatment, leading to improved health conditions and decreased disease burden.
- Promotes preventive healthcare and health education, empowering communities to manage their well-being.

#### 2. Reduced Financial Burden on Households:

- Eliminates medical expenses, easing household finances for other essential needs like education and nutrition.
- Prevents financial distress and reduces poverty levels by removing healthcare costs as a burden.
- Creates economic opportunities for families to invest in income-generating activities.

#### 3. Accessibility and Convenience:

- Brings healthcare services to the doorstep of people who may not have the means or ability to travel distant medical facilities.
- Reduces transportation costs and time spent seeking medical attention.
- Enhances patient satisfaction and adherence to treatment plans.

#### 4. Community Development:

- Provides a valuable social service that improves the overall well-being of communities.
- Encourages community involvement and volunteerism, strengthening social networks.
- Supports local healthcare infrastructure and capacity building.
- Promotes environmental sustainability and conservation efforts within the community.

## Al Falah Foundation Pakistan (Registered)

A subsidiary of the Silsila Naqshbandia Owaisiah, Al-Falah Foundation is a registered Category-A Non-Profit Organization (NPO). It is committed to provide welfare services to the marginalized communities across Pakistan. The foundation delivers support at the doorstep—respecting human dignity, and offering services without discrimination of faith or status. AlFalah Foundation was formally established in 1984 by Hazrat Ameer Mohammad Akram Awan (RA) and registered in 1991.

Among its many other initiatives, the Medical Wing of Al-Falah Foundation holds free monthly medical camps throughout the country. Currently, over 14 such camps are held every month, offering essential healthcare services to underserved populations. These initiatives are supervised and inspired by the compassionate leadership of Hazrat Ameer Abdul Qadeer Awan (MZA).

## Ameer Abdul Qadeer Awan (MZA)

### Patron-in-Chief, Al-Falah Foundation Pakistan

His Eminence Hazrat Ameer Abdul Qadeer Awan (MZA) is the current spiritual leader (Shaikh) of the Silsila Naqshbandia Owaisiah. Born on March 26, 1973, in Munara, District Chakwal, Pakistan. He received his formal education from the Siqarah Education System—a unique integration of Islamic and contemporary academic studies. As the son and most devoted student of Hazrat Ameer Mohammad Akram Awan (RA), he spent 44 transformative years under his guidance, gaining profound spiritual and religious insight.

Following the passing away of his esteemed father in 2017, Hazrat Ameer Abdul Qadeer Awan (MZA) was appointed as his rightful successor and Shaikh of the Silsila.

Even before his formal succession, he served in several key leadership roles, including Administrator of Dar-ul-Irfan (1994), President of Al-Ikhwan Punjab (2001), and Nazim-e-Aala of the Silsila (2003). He was also designated as "Qaim Maqam Shaikh" during his mentor's lifetime. Since 2010, he has been conducting annual national and international visits to spread the message of Tazkiyah-e-Nafs (inner purification), guiding thousands of spiritual seekers. He is the Editor-in-Chief of the Monthly Al-Murshid magazine and a distinguished author and speaker.

As the Shaikh, he also oversees all affiliated institutions, including:

- Dean, Siqarah Education System (a unique blend of religious and modern education)
- Head, Al-Ikhwan and Al-Ikhwaat (spiritual brotherhood and sisterhood)
- Founder, Glowing Heart Organization
- Patron-in-Chief, Al-Falah Foundation Pakistan

## 1st Quarter Report: Al-Falah Foundation Medical Wing

From January 2025 to March 2023

During the first quarter of 2025, Al-Falah Foundation Medical Wing continued its mission to provide free and accessible healthcare services to marginalized populations across Pakistan. A series of rotational medical camps were organized in collaboration with local health professionals, student volunteers, and donor partners. These camps served as life-line for rural communities, urban slums, incarcerated individuals, and flood-affected regions, offering general and specialized checkups, diagnostic services, medication, and health education – all free of cost. The following is a regional summary of the camps conducted, patients treated, and estimated expenditure.

## 1 Million+ Spent on 31 Camps, facilitating 9,308+ Patients!

### Rawalpindi / Islamabad Division

During the first quarter of 2025, the Al-Falah Foundation Medical Wing conducted six medical camps in the Rawalpindi/Islamabad region, including outreach efforts in areas like Rawalpindi, Jehlum, G-12, PD Khan, and Attock. These camps provided essential healthcare services such as general consultations, medication, and health counseling. A total of 1,496 patients were treated with an estimated cost of Rs. 102,500. The cost-effective nature of these camps (averaging Rs. 68 per patient) allowed the Foundation to maximize its reach while maintaining high-quality care for underserved populations.

### Sargodha Division

In Sargodha, two camps were organized in Klorkot and Shahpur. Despite the limited number, these camps served a significant number of individuals, treating 651 patients at an estimated cost of Rs. 95,000. With an average cost of Rs. 146 per patient, the efforts in Sargodha reflect a focus on depth of service, addressing more intensive medical needs within a smaller community footprint.

### Gujranwala Division

Gujranwala saw six well-coordinated camps across Pasoor, Waniawala and Qilla Dedar Singh. These outreach initiatives were strategically distributed across dates to accommodate diverse community needs. A total of 951 patients benefited from these services, with Rs. 123,000 invested into medical supplies, logistics, and expert consultations. With a per-patient cost of Rs. 130, these camps prioritized high-quality diagnostics and extended care.

## Faisalabad Division

Five camps were organized across Malikpur, Samundari, Saiyanwala, and Iqbal Town in Faisalabad, focusing on both general and specialized care. With 1,335 patients served and an expenditure of Rs. 96,000, these camps demonstrated a high-impact, low-cost model with an average of Rs. 72 per patient. The camps featured general physicians and trained volunteers providing essential support to underserved neighborhoods.

## Lahore Division

In Lahore, the Foundation held two impactful camps at Aziz Bhatti Town and Data Gunj Bakhsh Town. These efforts reached 1,200 individuals, many from low-income urban communities. With an investment of Rs. 94,800 (Rs. 79 per patient), the camps addressed a variety of issues including chronic illness management, nutrition education, and basic preventive screenings.

## Dera Ghazi Khan Division

A unique feature of this quarter's outreach was the inclusion of prison health services. Two camps were conducted in D.G. Khan at Sarwar Wali and the Central Jail & Baitul Maal, Orphanage delivering critical health checkups to 836 individuals. The total cost of Rs. 123,000, averaging Rs. 147 per patient, reflects the intensive nature of care in these environments, including follow-ups and referrals for inmates and vulnerable populations.

## Bahawalpur Division

The Foundation extended its medical services to Bahawalpur through two camps organized at Fatima School and Chak #4, Hasilpur. These camps catered to 1,044 patients with a total investment of Rs. 80,000, translating to an average cost of Rs. 77 per person. The emphasis in this region was on maternal health, nutrition, and chronic disease management.

## Multan Division

Despite one weather-related cancellation, three camps were successfully held in Multan's Qasimpur and Basti Shorkot, treating 1,330 individuals. At a total cost of Rs. 119,500 (Rs. 90 per patient), these camps focused on both general health and post-COVID complications, especially in underserved urban communities.

## Hazara Division

In Hazara, the Foundation organized two camps in Kamalpur and Abbottabad city, focusing on outreach hilly and rural regions with limited healthcare access. These camps treated 465 patients with a total expense of Rs. 51,000, averaging Rs. 110 per patient. The focus remained on accessible diagnostics, essential medicines, and health education.

## Quarterly Impact Summary

Across all nine divisions in Punjab and Hazarqa, the Al-Falah Foundation Medical Wing conducted a total of 31 camps, treating 9,308 patients at an estimated overall cost of Rs. 884,800. With an average cost of just Rs. 95 per patient, the Foundation remains committed to maximizing impact while ensuring quality care.

## Alignment with UN SDGs

The initiatives of Al-Falah Foundation align closely with several United Nations Sustainable Development Goals, demonstrating a commitment to global priorities for sustainable development:

### SDG 3: Good Health and Well-Being

**Target 3.1:** Reducing the global maternal mortality ratio – The focus on maternal and child health in Sargodha directly contributes to this target.

**Target 3.2:** Ending preventable deaths of newborns and children under 5 years of age – Health camps in various regions address critical health needs of children.

**Target 3.4:** Reducing premature mortality from non-communicable diseases – Camps in urban areas like Rawalpindi and Islamabad target non-communicable diseases, promoting preventive care and management.

**Target 3.8:** Achieving universal health coverage – By providing free medical services, the foundation is enhancing access to essential healthcare services for all.

### SDG 1: No Poverty

**Target 1.3:** Implementing social protection systems – The financial relief provided by free medical camps helps reduce poverty and economic vulnerability among the most disadvantaged populations.

### SDG 10: Reduced Inequalities

**Target 10.2:** Empowering and promoting the social, economic, and political inclusion of all – The camps specifically target marginalized and underserved communities, promoting greater health equity.

## Contribution to Pakistan's Healthcare Landscape

Al-Falah Foundation provides specialist doctors at the doorstep of Pakistani community medical camps are transforming the healthcare landscape of Pakistan by:

**Reducing Healthcare Disparities:** Bringing medical services to rural and underserved areas ensures that all citizens, regardless of their location or economic status, receive essential healthcare.

**Building Healthcare Capacity:** Training local healthcare workers and involving them in camps strengthens the local healthcare infrastructure.

**Raising Health Awareness:** Educational programs on hygiene, nutrition, and disease prevention during the camps empower communities to take proactive steps towards better health.

**Strengthening Resilience:** By addressing immediate health needs and promoting long-term well-being, the foundation enhances community resilience against health crises and emergencies.
